American Forest Management, representing TRG (The Rohatyn Group), formerly GMO (Grantham, Mayo, Van Otterloo), informed the Keweenaw County Board of Commissioners that TRG will be selling its land holdings in Keweenaw County within the next 10 years. They also solicited input from the Commission regarding the possibility of TRG approaching the Michigan Department of Natural Resources regarding trading or acquiring their property in the Keweenaw.

The following Michigan residents support the State of Michigan acquiring the Keweenaw land owned by TRG for the citizens of Michigan:
